

11 December 1962

MEMORANDUM FOR MR. WARNER

I talked with [] today. He indicated the "slippage" in time was caused by the Cuban crisis but they are making progress. I also talked with Dorothy Fosdick indicating the reason for the setback in time. She said this was no problem as far as they were concerned. They are more interested in a good problem. Per [] suggestion, I told Dorothy Fosdick that we would like to get together with them some time next week to review progress to date and discuss the project in further detail. Dorothy Fosdick thought this would be fine.
